PRESS NOTE

It has come to the notice of Government that in several places in the State hotel are run without obtaining any licenses therefor and that rules framed by the Local Bodies in this connection are not adhered to Many hotels are kept in a state which offend against ordinary principles of sanitation and are definitely harmful from the public health point of view The growing incidence of certain diseases is particularly attributed to ill kept hotels The quality of the food served and the method and manner of service fall far below the prescribed standard and it is difficult to assess accurately the effect that this would have on the health of the community Health Officers are therefore requested to exercise the most stringent control and see that rules framed in this behalf are strictly observed No laxity of any kind should be allowed and nothing short of closing down of hotels in extreme cases would be the consequence
